from Campbell, CA

I am a California based award winning Digital Designer that focuses on the accessibility of the web. I've been in the industry for more than seventeen years and I love every minute of it. I like the challenge of building websites that are fluid with a clean and usable design. I love building websites from the ground up having full control of every aspect of the code. Building responsive websites in HTML and CSS with bits of creativit to keep things exciting.

WORK EXPERIENCE

FREEDOM MORTGAGE CORPORATION / September 2017 - June 2018
Digital Designer - Finance / Mortgage

- Partner with project manager and back-end developers to lead and execute UI/UX projects.
- Design and develop state of art ADA Compatible, Responsive websites using notepad with using HTML5, CSS, jQuery, Bootstrap, Photoshop, Illustrator and run reporting tools using Google Analytics.
- Prepared UI Workflows of the projects and decided UX layouts with getting informations from the management teams.
- Designed User interfaces, created user workflows and interactive prototypes for the mobile (IOS, Android) applications.
- Designed and coded interactive slides, marketing materials for the marketing team.
- Assisted in recommending process improvements and development of documentation for the team.
- Coded WCAG 2.0 AA compatible projects and delivered to the end users.
- Worked with IT .NET Web development / Marketing teams to set the standards for the projects and prepared company design guidelines for unifying company's brand.
- Work with web production to test and QA websites and finding/applying solutions for the problems.

NEW YORK COMMUNITY BANKCORP / November 2013 - September 2017
Web Designer / Front-end Web Developer - Finance / Mortgage

My main responsibilities are designing customer and business oriented web interfaces and creating working mockups, then preparing RWD prototypes for the back-end team and support for the life of the projects.

ECS TUNING / May 2010 - October 2013
Front-end Web Developer / Designer / Photographer - Car Tuning Service

- Project management for all front-end web/graphic design, art-direction for the brand and interactive projects.
- Spearheaded adoption of new principles such as responsive design, fluid grids, and adaptive design.
- Created cross-platform compliant e-newsletters that reaches out to thousands of recipients.
- Worked across multiple projects of varying complexities while managing and respecting deadlines.
- Worked alongside a talented team of digital product photographers to make sure all images and quality are aligned strong with brand identity.
- Designed & developed visual layouts, graphics, themes and micro websites for intranet system.
- Capture and edit stunning photos and videos, created designs and layouts for brochures, posters, magazine ads, newsletters, postcards, banners, forms, PowerPoint presentations and web graphics.

Hotcards / July 2009 - March 2010
Front-end Web Developer - Design & Print

Worked with a team of developers for the online Bike building/shopping project, named Cyqlr. My main responsibility was converting the PSD files to XHTML and integrate with the in-house built CMS system. I designed and coded my own templates for the project as well.

Biletix - a Ticketmaster Company / Sept 2003 - Apr 2008
Art Director / Web Channel Coordinator - Online Ticket Sale

- As a Art-Director and Web Channel Coordinator, I led staff of 3 web professionals and collaborated with account managers to code & manage the e-commerce website with using web technologies (XHTML, HTML, CSS and jQuery), design printed materials (brochures, flyers, posters, tickets).
- Created Video Clips with Final Cut Studio (met with audience in December 2008 in LA Ticketmaster Meeting).
- Won 5 times "Golden Spider Web Awards"
